

Rack Mount

Fiber Connections' Rack Mount Housings are suitable for any cable design and can be used with either Fiber Distribution Modules (FDMs) or standard adapter plates. The Rack Mount Enclosures are available in 1U, 2U and 4U rack space versions and fit into a standard 19" equipment rack or cabinet.

1U Enclosure - holds 2, 5" FDMs or Adapter Plates

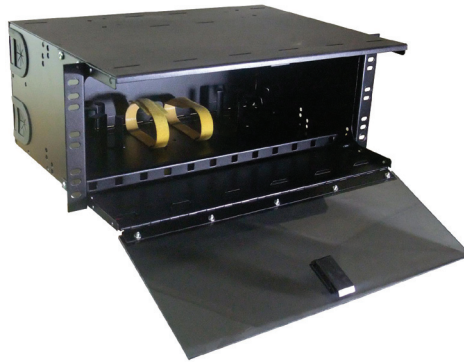

4U Enclosure - holds up to 12, 5" FDMs or Adapter Plates

The 2U enclosure offers unique, angled adapter plates and includes splice trays to accommodate patch and splice applications. The 2U can handle up to 48 fibers. For more information on this unique product, contact us with your inquiry.

The panels are fabricated from sheet steel (4U) or powder coated aluminum (1U and 2U).
