

## Adapter Plates

Fiber Connections' Adapter Plates are designed to fit any of our rack mounted, wall/ceiling mounted and zone distribution enclosures. These 5" adapter plates have easy snap in hardware, making installation quick and simple.

Adapter plates are available with any standard fiber optic adapter housings, allowing convenient fiber distribution for any multimode or single mode fiber network. Up to 12 adapter plates will fit in a Fiber Connections' 4U rack mount enclosure, providing distribution for up to 288 fibers (w/ LC connectors).

### FEATURES/BENEFITS

- Use for any patch panel/fiber distribution application
- Use with Single mode or MM fiber
- Adapters for all standard fiber optic connectors
- Simplex, duplex and APC adapter versions
- Easy snap in hardware takes very little installation time
- Modular design allows easy adds and changes
